WORK HISTORY

Senior Software Developer C#, VB.NET / Senior Dynamics CRM Consultant | TTC Inc. **07/2022 - 07/2025**

- Provided Senior Software support for the Federal Railroad Administration (FRA).
- Created multiple plugins in C# as needed.
- Created JavaScript customization that provided needed functionality for multiple clients.
- Deployed, configured and customized several Dynamics 365 CRM environments and instances.
- In charge of support for seven environments through FRA's case system.
- Scoped and executed multiple Statements of Work (SOWS) of upgrades to all environments.

Senior Software Developer C#, VB.NET / Senior Dynamics CRM Consultant | InfoGrow Corporation Cuyahoga Falls, OH

01/2002 - 07/2022

Designed and maintained integrated requirement traceability matrices to verify development performance consistency across teams and projects.

- Designed, created and deployed the banking industries proximity location applications in C# and VB.Net. Both a website for uploading client list for proximity location analysis and automated exe that generated and sent custom built BI reports per client.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Provided round the clock, level one support for company's onsite data center hosting numerous clients including larger clients such as Cleveland Clinic and Fifth Third Bank.
- Responsible for installations and upgrades of Dynamics CRM (on-premises and Cloud) starting with version 1.2 - Dynamics 365. This includes network deployment/configuration, Active Directory Federation Services (ADFS), Internet Facing Deployment (IFD) and Certificate generation, installation and renewals. Over 15 years' experience working with the CRM.
- Revised, modularized, and updated old code bases to development standards, reducing operating costs and improving functionality.
- Responsible for full SDLC of solutions and products integrated into Dynamics CRM for company. Written in VB.Net and C#, notable products include CRM SmartMaps, CRM2Maps and CRM Market Builder.
- Collaborated with Microsoft to collect and analyze client requirements, incorporating business goals and budgetary concerns into project proposals. Became a Subject Matter Expert for Bing Maps and helped develop their certification exam for this product at the Microsoft campus in Seattle.
