

HITESH MADDI

Houston, TX (Remote) · +1 (774) 847-1744 · hiteshmaddi96@gmail.com

PROFESSIONAL SUMMARY

- Data Engineer with 4+ years of experience designing and building scalable data pipelines and analytics solutions within the Microsoft Azure ecosystem.
- Strong expertise in Azure Data Factory, Databricks (Spark), Synapse Analytics, and advanced SQL — with hands-on experience in dimensional modeling (star schemas) and integrating data from API sources using OAuth 2.
- Proven ability to deliver reliable, well-documented data solutions, support end-to-end pipeline development, and collaborate with cross-functional teams to drive data initiatives and improve business outcomes.
- Detail-oriented engineer with a growth mindset — comfortable contributing to design discussions, building reusable pipeline patterns, and taking ownership of issues through to resolution.

TECHNICAL SKILLS

Microsoft Azure:	Azure Data Factory, Azure Databricks (Spark), Synapse Analytics, Microsoft Fabric, ADLS, Azure SQL Database
Data Engineering:	Advanced SQL, Dimensional Modeling (Star Schemas), Metadata-Driven Pipelines, ETL/ELT Design, Data Lakehouse
Ingestion & Integration:	API Sources (OAuth 2), JSON Normalization/Flattening, High-Volume Data Streams, Data Quality & Security
Delivery & Methods:	Diagramming & Documentation, Reusable Patterns, Data Quality, Project Delivery, Agile/Scrum

PROFESSIONAL EXPERIENCE

UPS | Data Engineer

May 2024 – Feb 2026 | Houston, TX

- Designed and developed data pipelines using Azure Data Factory, Databricks (Spark), and Synapse Analytics to support analytics and data integration use cases — processing hundreds of millions of records daily with high reliability.
- Built and optimized dimensional data models (star schemas) to enable efficient reporting and analytics consumption, combining data lake and data warehouse patterns into scalable lakehouse architectures.
- Ingested data from API sources using OAuth 2 — transforming and normalizing nested JSON structures into optimized SQL formats for downstream analytics, reducing pipeline failures by ~75%.
- Collaborated with BI developers, Azure cloud teams, and business stakeholders to deliver scalable, reliable data solutions aligned with analytics requirements and enterprise standards.
- Contributed to documentation, design discussions, and implementation of reusable metadata-driven pipeline patterns — ensuring data quality, modularity, and maintainability across the platform.
- Took ownership of data issues through to resolution, applying strong problem-solving and decision-making abilities to maintain high availability and performance of production data systems.

Environment: Azure Data Factory, Azure Databricks (Spark), Synapse Analytics, Microsoft Fabric, ADLS, Azure SQL Database, Advanced SQL, OAuth 2, JSON, Star Schemas, Git, Agile

Cognizant | Data Engineer

Jan 2022 – Feb 2023 | Hyderabad, India

- Developed and maintained data pipelines using Azure Data Factory, Azure SQL Database, and ADLS — ensuring data quality, reliability, and security across ingestion and transformation stages.
- Wrote complex SQL transformations to support analytical workloads and reporting needs — optimizing query performance and ensuring data consistency across production systems.
- Collaborated with client teams to translate business requirements into technical data solutions, contributing to design discussions and documentation of pipeline architectures.
- Supported issue resolution and performance optimization across data pipelines — identifying root causes and implementing fixes to maintain data integrity and system reliability.

Environment: Azure Data Factory, Azure SQL Database, ADLS, Advanced SQL, JSON Normalization, OAuth 2, Databricks, ETL/ELT, Documentation, Git, Agile/Scrum

EDUCATION & CERTIFICATIONS

Fitchburg State University

Aug 2023 – May 2025

M.S., Computer Science — GPA: 3.69/4.0

Kalasalingam University

Aug 2018 – Mar 2021

B.Tech, Computer Science and Engineering — GPA: 7.53/10

Certifications: Databricks Certified Data Engineer Associate | AWS Certified Data Engineer – Associate
